

How to Use Flags in a Mission Event

There are numerous ways a church/district could use the flags in creative ways to encourage Nazarenes to continue to support Nazarene World Mission through praying, discipling, giving and educating.

1. Instead of the March of the Nations that we are in, have a March of the Nations that we are not in, emphasizing the work we still have to do.
2. If not marching in the flags, display the countries we are in inside the room in which the event is held. Display the rest outside of the room, making the point that we don't want anyone excluded, we want to bring them into the family.
3. Display the flags of countries we are not in around the room in which we are meeting. At prayer time, encourage people to pray specifically for each one of the countries we are not in.
